ATTENTION, EAGLES.

All Eagles are requested to be present at the Aerie room Wednesday, July 28th, 1:30 p. m., for the purpose of attending the funeral of our late Brother W. W. Brown. Degree team in uniform.

By order of A. C. FIELTZ,
Attest: E. R. GEIGER, Secretary.

ARRESTED FOR USING MAILS TO DEFRAUD

Washington, July 27.—Charged with using the mails to defraud, J. A. McNulty, president, and H. Van Vleet, secretary and treasurer of the American civil service institute, incorporated, were locked up last night after having been arrested by postoffice inspectors.

McNulty and Van Vleet are alleged to be prominent financiers of Buffalo, N. Y. It is said the corporation, with which they are connected, has received within the last two months thousands of dollars from prominent citizens of New York, Buffalo, Detroit and other large cities.

The object of the institute, which was incorporated under the laws of Delaware, April 7, 1907, with a capital stock of \$350,000, is to instruct applicants as to the methods necessary to obtain federal civil service positions.

Recent advertisements have appeared for district superintendents in large cities, subscriptions to \$500, of the concern's stock being received by applicants.

Van Vleet told the police that \$150,000 of the capital of the concern had been invested in bonds, which were locked up in a safe deposit vault of a Washington loan and trust company. He could not, however, recall the name of the institution.

NOTICE.

Owners of watches or other jewelry for repairs left with J. A. Beltzer, 2476 Grant avenue, will please call for same at once.

FIGHT FOR WOMAN SUFFRAGE AT COLUMBIA UNIVERSITY

New York, July 27.—The fight for woman's suffrage, backed by the Equal Franchise society, of which Mrs. Clarence H. Mackay is president, has been taken to the Columbia university, where 2,000 summer students are now attending classes. A majority of those students are women teachers. In the first of a series of lectures, Dr. John Dewey, professor of philosophy, spoke on "Some Educational Aspects of Equal Suffrage."

The educational situation of the country would be greatly improved, if women were enfranchised, was one of the arguments advanced by Professor Dewey. He deplored the fact that, because of the tendency of public officials to keep down the salaries of women teachers, the public fails to place a true value upon the work of women educators.

"There might be some justice in denying to women the privilege of franchise," Professor Dewey said, "if she were not permitted to own real estate or were not required to pay taxes on her holdings."

He then discussed the injustice of the system of taxation which does not carry with it the privilege of a voice in the management of all public affairs.

HAWAIIAN PLANTERS MAY IMPORT RUSSIAN LABORERS

Honolulu, July 26.—Hawaiian sugar planters are contemplating importing Russian immigrants to solve the labor problem in the islands. A Russian capitalist, now visiting here, has offered his assistance to bring some of his countrymen to the islands, many of whom he stated, would like to come as plantation laborers.

At least one plantation has decided to make the experiment, and application has already been made to the territorial board of immigration for the importation of forty Russian families. If these are found to be desirable as immigrants and satisfactory as plantation laborers, it is understood that many more will be sent for.

The Hawaiian planters have experienced some difficulty in securing laborers, and all have proved unsatisfactory. The Japanese are on strike for higher wages and many of the Spaniards, Portuguese and Porto Ricans became discontented and left the islands.

The Sale Days Are Numbered

—you have, no doubt, been expecting to come to this general sale---do not put it off another day.

—you'll be surprised to find us so busy---as the time for the ending of the sale draws near more people realize the importance of filling future and present wants.

Wrights Summer Sale

COUNCIL HAS FIGURES ON WATER

COMMITTEE AT LAST MAKES PUBLIC THE REPORT.

Moran's Bonds On Paving Contract Approved—Mrs. Tillie Hancock Poulter Is Made City Recorder.

The report of the waterworks department was submitted to the city council at its meeting last evening. A copy of the report was furnished one of the Salt Lake papers in time yesterday to be mailed to Salt Lake, although none of the Ogden papers were extended that courtesy. Part of the city council evidently is much concerned as to what the Salt Lake patrons of the system think of the report, but are not eager to obtain Ogden opinion.

The official report will appear in this paper as soon as obtained.

At about noon today a copy of the report was received at this office.

The balance sheet showing the gross earnings and disbursements of the system since it was purchased by the city is embodied in the report. The operating expenses of the system for the past six months, according to the report, was \$17,932.56; the net earnings \$21,232.20, making the total receipts \$39,165.76. When the report had been read President Browning announced and completed the report of the special waterworks committee and Manager Kircher on the able manner in which this department of the city has been conducted. He declared that more revenue had been received from the department than had been generally expected and that, contrary to current rumor, the property of the system was in excellent condition.

Attention was called to the number of water main extensions which have been completed since the city gained control of the plant, on Twenty-eighth street, on Royal avenue, Washington avenue, West Patterson and Euclid avenues, with the construction of a reservoir of 10,000,000 gallons, which is nearing completion.

Councilman Peery, a member of the special waterworks committee, moved that a vote of thanks be tendered to Manager Kircher for his able management of the affairs of the system, and the motion was carried unanimously. Commenting on the criticisms which had been directed against the management of the waterworks department, Mr. Peery said: "Of course, we expect Mr. Glasman to attack this report and to make a kick, and we hope he will attack it if he will show it up in a truthful light. No political argument can be used, however, because Republicans and Democrats are equally responsible for the purchase of the system and for its management."

Councilman Powers, expressed himself as agreeably surprised at the excellent report submitted by the committee and Manager Kircher, and declared that for the best interests of the department and the citizens of the city the present schedule of water rates should be maintained and the improvements mapped out consumed. Councilman Dana thought that Councilmen Peery and Powers were somewhat premature in their remarks, as there possibly would be no record on the report and the matter of rates was not at this time before the council. Mr. Peery replied by declaring that the present city administration has accomplished more than the Glasman administration and as much as the previous administration.

In the semi-annual report Mr. Kircher explained that the revenues received from the system during the next five years will have to be expended if the desired improvements are to be made. After further discussion the report was ordered filed.

Mrs. Tillie Hancock Poulter, who has been acting as city recorder since the illness of the late Ernest P. Brown, was appointed to fill the unexpired term caused by his death, by Mayor Brewer.

Upon the recommendation of the light committee the request of the G. A. R. committee for the use of the chains of incandescent lights on Washington avenue and Twenty-fifth street during the national encampment was adopted.

The street committee recommended that the matter of the opening of Twenty-ninth street between Washington and Pacific avenues be referred to the city engineer for an estimate of the probable cost. The recommendation was adopted.

Upon the recommendation of the special waterworks committee water rates for a week caused the loss of the British steamer Cairnraig, a steel ship of nearly 2,000 tons which left Boston Thursday for Great Britain.

The Cairnraig struck Northling Rocks, Grover island, eight hours west of Canada, early yesterday and will be a total loss. The captain and his crew escaped in their boats to land.

BUILDING IN THE ECCLES ADDITION

TEN NEW HOUSES ARE TO BE CONSTRUCTED.

There Has Been Much Home Building in the City During the Present Season.

At least ten and perhaps more substantial houses, ranging in cost of construction from \$5,000 to \$10,000, will be completed or commenced in the Eccles addition before the end of this season. This tract comprises ten acres, and is considered a most desirable residence district.

One of the houses in the course of construction is being built for W. A. Wright, L. R. Eccles, Geo. S. Davis, Mr. Hillier, manager of the Eccles Plate Glass company, and Jas. M. Cause, salesman for the Oregon Lumber company, will also be the owners of fine homes in this district.

The other residences will be erected for the Eccles Lumber company.

There is considerable home building going on in Ogden this season. Most of the homes being built are of attractive style. The bungalow style has been popular in the designing of the new residences, while many are built after more imposing plans.

Residence lots in Ogden have sold at good figures this year, and many of them have been purchased by outsiders, some as investments, and others for sites for homes to be occupied by people who contemplate making this city their permanent residence place.

TAKE A TRIP TO OGDEN CANYON, A MOST BEAUTIFUL RIDE.

Cars leave Union Depot at 6:20 a. m. and every 40 minutes thereafter until 11:00 a. m. and then every 20 minutes until 10:20 p. m. Last two cars leaving Hermitage at 11 p. m. and 11:30 p. m.

Tickets on sale at the following places:
Carr's Drug Store,
Cave's Drug Store,
Depot Drug Store,
Brown's Drug Store,
Culley Drug Store,
Bacon's Drug Store,
Henneman & Moser Cigar Store,
Ogden Canyon Autos connect with every car. Round trip from Hermitage to Idlewild and the Oaks Twenty-five Cents.

First Auto leaves Oaks and Idlewild at 7:20 a. m. and last 11 p. m., connecting with each car at Hermitage.

It will be gratifying intelligence to Ogden people to learn that at least part of the Southern Pacific yard improvements will go forward as soon as the changed and new plans for the work have been formally approved again by those in authority. The five new additional tracks for passenger trains on the west side of the Union passenger depot are to be constructed without unnecessary delay and as soon as the material can be secured for that purpose.

These additional tracks are absolutely necessary in order to successfully handle the sixty odd passenger trains which arrive and depart from the Union passenger depot every twenty-four hours.

The re-arrangement and the enlargement of the yards will be delayed, however, until the question of the location of the new freight depot is finally determined upon. Railroad officials maintain that available sites for the new structure can be secured on the north side and in the vicinity of Twentieth streets, and on the south side in the vicinity of Twenty-ninth street, and in case either of these sites are chosen, the present plans for yard enlargement would have to undergo a radical change.

It is known that Vice-President Kruttschnitt approved the plans for the new freight depot on the site of the Kiesel warehouse and authorized those in authority on the Oregon Short Line system to proceed with the construction of the building as soon as the lease question could be settled on the best terms possible, but these instructions have been ignored so far, and just whether Mr. Kruttschnitt would approve the erection of a \$100,000 freight house on either location now discussed is doubtful—or at least considered so by well-posted railroad men.

Rings Little Liver Pills.—Small, pleasant and easy to take. Pile-solve, carbolized, is good for burns. It penetrates the pores, draws out inflammation, and is healing. It is also good for cuts, sores and bruises. Sold by Geo. F. Cave and Depot Drug Store.

INDIAN MAIDEN FROM CARLISLE HAVE OUTING

Atlanta, Ga., July 27.—Twenty-five Indian maidens from the Carlisle school in Pennsylvania yesterday reached Blue Ridge, a picnic resort about twenty hours' ride from Atlanta, to spend a fortnight in horseback riding, hill climbing and general outdoor recreation.

Accompanying them as their chaperons are the daughters of John Wamsmaker, the millionaire, and John B. Stetson, the manufacturer.

The girls are going into camp about two miles from the town and for two weeks they will live in the manner of their forefathers.

**BRITISH STEAMER IS
LOST IN DENSE FOG**
Cano, N. S., July 27.—The dense fog which hung over the Nova Scotia coast for a week caused the loss of the British steamer Cairnraig, a steel ship of nearly 2,000 tons which left Boston Thursday for Great Britain.
